

Complete Fluid Applied Roof Restoration Solutions

Fabric-Less Coating Systems | Faster Installation | Finish Quick/Finish First

PREMIUM ACRYLIC AND SILICONE COATINGS

We provide coatings for almost every roofing surface. From water leaks, cool-roof reflectivity, to complete roof restorations, our coatings perform many critical functions and maintenance of a building.

Fluid-applied coatings are beneficial for both contractors and building owners. From easy installation, multiple solutions, and IB Roof's proven track record make IB a win-win. Building owners understand the value that IB quality products provide. Fluid-applied solutions deliver continued life to an existing roof with little to zero interruption of business or tenants. With a reflective, energy efficient and long-lasting application, an IB roof coating can save you money and time on your next project.

Built to Last

Designed to help reduce surface temperatures, minimize thermal expansion and contraction while providing exceptional resistance to UV degradation and preventative coating solutions for renewal and restoration of metal panel roofs, EPDM, thermoplastics, asphaltic and modified bitumen, concrete, and foam.

IB ACRYLICS

Acrylic roof coatings provide superior durability and can be installed over TPO, metal, EPDM, and modified bitumen installations. Our coatings provide a reflective, efficient and near maintenance free installation.

IB SILICONES

Our high-performance elastomeric silicone coatings deliver excellent weatherproofing, UV and biological, resistance, with fire resistance over a foam insulation and other approved substrates.

IB Roof Systems proudly offers a complete line of coatings, accessories and single-ply PVC roofing products for commercial and residential uses. IB Roof Systems has been providing Industry's Best roofing products since 1978. By making products that meet the needs of contractors as well as designed for the building owner, IB is the partner you need on your next project.
