Architects who want options ask for IB.

With proven technical solutions, custom fabrication, longest total systems warranties, and the largest selection of in-stock color materials, **IB Roof Systems is the Right Choice.**

Available in-stock colors

Designed for Architects. Get the **Most** out of IB.

Most Critical.

IB Roof products are designed for the most critical architectural specifications. From design to installation we have you covered.

Most Custom.

IB offers custom fabrication, detailed specifications and the most colors available so that your project can have the quality and finish it needs.

Most Durable.

IB PVC membranes are uniquely formulated to withstand ponding water. Ponding water is **not excluded** from the IB warranty.

Most Reliable.

Nearly four decades of proven performance history from IB Roof Systems results in significant cost savings.

Most Cool.

IB offers Energy Star Rated, Cool Roof Rating Council listed, and Title 24 Compliant solutions saving money on heating and cooling costs.

Most Safe.

IB Roof Systems utilizes a hot air welding process with no open flame which means no risk of fire during installation.
