IB PVC WB Adhesive

Version 1.0 Created Date 09/23/2026

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name	:	IB PVC WB Adhesive
Manufacturer's product designation	:	H.B. Fuller® 22095 (Product code 100000033178)

Manufacturer or supplier's details

Company	:	IB ROOF SYSTEMS, LLC
Address	:	506 E. DALLAS RD STE. 300, GRAPEVINE, TX 76051
Telephone	:	1-800-426-1626
Emergency Telephone number	:	855-280-2834 (3E Emergency Response U.S.); 760-602-8703 (3E Emergency Response International)

Recommended use of the chemical

Recommended use	:	Water based adhesive
Restrictions on use	:	For industrial use only

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification : Not a hazardous substance or mixture.

No hazard pictogram, signal word, hazard statement(s), or precautionary statement(s) required.

Emergency Overview

Appearance	:	Liquid
Color	:	White
Odor	:	Characteristic

Carcinogenicity

IARC: No ingredient present at ≥0.1% is identified as a probable, possible or confirmed human carcinogen. OSHA: No component present at ≥0.1% is on OSHA's list of regulated carcinogens. NTP: No ingredient present at ≥0.1% is identified as a known or anticipated carcinogen.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Hazardous ingredients

Chemical name	CAS-No.	Concentration [%]
Methanol	67-56-1	0.1 – 1

Actual concentration is withheld as a trade secret.

SECTION 4. FIRST AID MEASURES

Inhalation	:	Remove person to fresh air. If signs/symptoms continue, get medical attention.
Skin contact	:	Wash off immediately with plenty of water.
Eye contact	:	Flush eyes with water at least 15 minutes. Get medical attention if eye irritation develops or persists.
Ingestion	:	Do NOT induce vomiting. If accidentally swallowed, obtain immediate medical attention. If conscious, drink fresh water.

General advice

Show this Safety Data Sheet to the doctor in attendance.

IB PVC WB Adhesive

Version 1.0 Created Date 09/23/2026

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media : Water mist, foam, dry powder, carbon dioxide (CO_2)

Specific hazards: Cool closed containers exposed to fire with water spray. This product is an aqueous mixture that will not burn; dried product film will burn in a fire.

No special protective measures against fire required.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Refer to protective measures listed in Sections 7 and 8.

Environmental precautions: Try to prevent the material from entering drains or water courses. Dilute with much water.

Methods for containment and cleaning up: Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

SECTION 7. HANDLING AND STORAGE

Advice on safe handling: No special handling advice required.

Conditions for safe storage	:	Do not freeze. Keep tightly closed in a dry and cool place. Keep container closed when not in use. Protect against light.
Storage temperature	:	> 5°C
Materials to avoid	:	No special restrictions on storage with other products

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Chemical name	OSHA PEL (TWA)	ACGIH TLV (TWA)	ACGIH TLV (STEL)
Methanol	200 ppm (260 mg/m³)	200 ppm	250 ppm

Personal protective equipment

Respiratory protection	:	No personal respiratory protective equipment normally required.
Hand protection	:	Protective gloves; material must be impermeable and resistant to the product. Consult the glove manufacturer for breakthrough time.
Eye protection	:	Safety glasses or equipment with better protection.
Protective measures	:	The usual precautionary measures should be adhered to in handling the chemicals. Wear suitable protective clothing.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	:	Liquid
Color	:	White
Odor	:	Characteristic
Odor threshold	:	Not determined
pH	:	6
Melting point/freezing point	:	0°C
Boiling point/range	:	100°C
Flash point	:	Not applicable

Evaporation rate	:	Not determined
Flammability	:	Not classified as a flammability hazard
Vapor pressure	:	23 hPa (20°C)
Relative vapor density	:	Not determined
Density	:	1.07 g/cm³
Water solubility	:	Completely miscible
Partition coefficient (n-octanol/water)	:	No data available
Autoignition temperature	:	Not self-igniting
Explosive properties	:	Not explosive

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	No further relevant information available
Chemical stability	:	No decomposition if used according to the specifications
Possibility of hazardous reactions	:	No dangerous reaction known under conditions of normal use
Conditions to avoid	:	Heat may lead to dangerous pressure build-up in sealed container. Protect from frost.
Incompatible materials	:	No further relevant information available
Hazardous decomposition products	:	No decomposition if stored and applied as directed

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity (product)

Acute oral toxicity estimate	:	> 5,000 mg/kg (calculation method); classification criteria not met
Acute inhalation toxicity estimate	:	> 200 mg/L, 4h, vapor (calculation method); classification criteria not met
Acute dermal toxicity estimate	:	> 5,000 mg/kg (calculation method); classification criteria not met

Skin corrosion/irritation, serious eye damage/eye irritation, respiratory or skin sensitization, germ cell mutagenicity, carcinogenicity, STOT (single and repeated exposure): based on available data, the classification criteria are not met. Reproductive toxicity and aspiration toxicity: no data available.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity, persistence and degradability, and other adverse effects: no data available.

Bioaccumulative potential — methanol: partition coefficient n-octanol/water, log Pow: -0.77.

Mobility in soil (product): Medium: Soil. Remarks: Generally not hazardous for water.

SECTION 13. DISPOSAL CONSIDERATIONS

Waste from residues: To the best of the supplier's knowledge, this product does not meet the definition of hazardous waste under the U.S. EPA Hazardous Waste Regulations 40 CFR 261. Solidify and dispose of in an approved landfill. Consult state, local or provincial authorities for more restrictive requirements.

Contaminated packaging: Recommended cleaning agent is water, if necessary with cleaning agent. Disposal must be made according to official regulations.

SECTION 14. TRANSPORT INFORMATION

UNRTDG	:	Not regulated as a dangerous good
IATA-DGR	:	Not regulated as a dangerous good
IMDG-Code	:	Not regulated as a dangerous good
49 CFR (Domestic)	:	Not regulated as a dangerous good

SECTION 15. REGULATORY INFORMATION

SARA 311/312 Hazards	:	No SARA Hazards
SARA 302	:	This material does not contain any components with a Section 302 EHS TPQ
SARA 313	:	This material does not contain any chemical components with known CAS numbers that exceed the De Minimis reporting levels established by SARA Title III, Section 313

Clean Air Act

Methanol (67-56-1) is listed as a HAP under the U.S. Clean Air Act, Section 112 (40 CFR 61).

US State Regulations

California Prop 65: Please contact supplier for more information.

Inventories

TSCA: All substances listed as active on the TSCA inventory. DSL (Canada): All components on the Canadian DSL.

SECTION 16. OTHER INFORMATION

NFPA / HMIS Rating

Health	Flammability	Instability	Special
0	0	0	—
