

Product Description:

Constructed from super heavy-duty UV stabilized PVC with integral insect resistant screen, offering a net free ventilation area of 52 square inches per vent.

- The deck flange includes pre-drilled holes for easy attachment.
- The strong cap is permanently attached to resist damage.
- The Attic Vent unit comes with an IB® PVC Single Ply target sheet dielectrically welded to the flange.

Weight:

7 lbs./ 84 lbs. per box.

Packaging:

Individual or 12 per box. One-way vents are special order basis only.

Vent Colors:

White	Bronze	Tan	Gray

Available Membrane Colors:

White	Cool Sand	Cool Stone	ChemGuard
Bronze	Gray	Tan	Terra Cotta

Use:

Two-way units may be used as general-purpose roof vents to provide ventilation of interior attic and cavity spaces.

Note: Not for use over any type of exhaust vent. Do not use over dryer or gas vents, heat stacks, chimney vents, plumbing, bath, or kitchen vents.

Application:

Refer to IB PVC Specifications and Construction Details for installation requirements and additional information for specific uses. Refer to www.ibroof.com for additional installation instructions. Membranes must not be applied during adverse weather or without precautionary measures in temperatures below 40°F (4°C). All surfaces should be clean, dry, free of dirt, dust, debris, oils, soaps, coatings, and other contaminants that may inhibit bonding.

Product details stated are nominal as manufactured, and the results of tests and/or calculations and therefore are non-binding and do not represent a guarantee or warranted characteristics. User and/or designer are responsible for confirming suitable performance for specific application and conforming with all applicable laws and regulations.

Storage:

Store IB PVC Attic Vent indoors, out of direct sunlight, in original unopened containers and away from objects that could cause physical damage or create punctures.
