

Product Description:

IB® Flexible Metal Profiles are constructed of high-quality PVC polymers and plasticizers which are extrusion formed and designed to enhance the visual aesthetics of an IB Roof by simulating a metal standing seam appearance. Inherent flexibility provides maximum versatility in adapting to a variety of flat, radius and curved substrates.

Product Specs:

Length: 10'

Profile height: 1-1/8"

Rib profile: 5/8" (base), 1/4" (top)

Base flange: 1-3/8"

Packaging:

36 units per box.

Weight: 2 lbs. each, 72 lbs. per box

Available Membrane Colors:

			
White	Cool Sand	Cool Stone	ChemGuard
			
Bronze	Gray	Tan	Terra Cotta

All other colors are special order.

Use:

Refer to IB Specifications and Construction Details for installation requirements and additional information for approved substrates and specific uses. IB® Flexible Metal Profiles are used in conjunction with IB PVC Single Ply membranes and are intended to be hot air installed over approved IB® PVC Single Ply membranes.
