

Product Description:

IB Flexible Metal Profiles are constructed of high-quality PVC polymers and plasticizers which are extrusion formed and designed to enhance the visual aesthetics of an IB Roof by simulating a metal standing seam appearance. Inherent flexibility provides maximum versatility in adapting to a variety of flat, radius and curved substrates.

Product Specs:

Length: 10'

Profile height: 1-1/8"

Rib profile: 5/8" (base), 1/4" (top)

Base flange: 1-3/8"

Packaging:

35 units per box.

Weight: 2 lbs. each, 70 lbs. per box

Available Colors:

White	Cool Sand	Cool Stone
Bronze	Gray	Tan

Use:

Refer to IB Specifications and Construction Details for installation requirements and additional information for approved substrates and specific uses. IB Flexible Metal Profiles are used in conjunction with IB PVC Single-Ply membranes and are intended to be hot air installed over approved IB PVC Single-Ply membranes.

Product details stated are nominal as manufactured, and the results of tests and/or calculations and therefore are non-binding and do not represent a guarantee or warranted characteristics.
