

Product Description:

NR 5" x 8" Metal Joint Patch are pre-cut, non-reinforced IB PVC membrane patches designed to be used in conjunction with a single-sided, bond breaker foil tape at butt joints of IB PVC Clad Metal Drip Edge and Gravel Stop. When used at the butt joints of clad metal in accordance with IB Construction Details, the inherent flexibility improves resistance to metal movement at the joint while permitting a watertight, hot air welded seam to clad metal flashings and IB membranes.

Size:

5" x 8" each

Packaging:

Sold in a 50 units pack or in bulk 10 packs (500 units) per box.

Weight: 5.1 lbs. per pack, 55 lbs. per box

Available Colors:

Standard Clad Finish in White, Bronze, Tan, and Gray

Foil Tape is a single sided, self-adhesive, foil faced tape used over the joints of IB PVC Clad Metal Drip Edge, Gravel Stop and clad metal flashings as a bond breaker. Foil tape prevents heat bonding of the flashing membrane over clad metal side and end joints.

Size:

2" x 150' roll

Packaging:

Sold individually.

Weight: 1.04 lbs. per roll
